

January 14, 2019

**FREE DELAYED PRICING ON NEW FARM DELIVERED
CORN AND SOYBEANS TO
VALLEY VIEW MILLING, LLC UNTIL SEPTEMBER 30, 2019.**

Effective January 14, 2019, we are offering free delayed pricing until **September 30, 2019** on new delivered bushels of corn and soybeans delivered to Valley View Milling, LLC, Seneca, Kansas by August 31, 2019.

Bins need cored as some corn and soybeans are carrying moisture, so here is an opportunity to move some bushels. Take advantage of weather breaks and sell on price rally days in the future.

These policies are subject to space availability. We may suspend this program at certain times depending on farmer cash grain movement.

If you are interested in delivering corn and soybeans to Valley View Milling, LLC, please contact us and let us know how many bushels. These bushels will be placed on delayed pricing contracts. If these bushels are not priced by September 30, 2019, they will be subject to a 15 cent fee on October 1, 2019, with our daily rates thereafter. They will not be automatically sold. We want to promote getting these bushels marketed before the 2019 harvest.

Bushels previously delivered are **not** eligible to be moved over to this program; This is strictly for new, off the farm bushels delivered by August 31, 2019. We are not calling in contracted bushels for future months.

Valley View Milling, LLC is an Equal Opportunity Provider.
